With a range of water saving products from Urbano Artificial Turf

making the most out of your outdoor areas this summer

MiRoad Rubber Mulch

MiRoad Rubber Mulch is an attractive, long lasting alternative to natural products for use in landscape and garden areas. Available in a range of fade resistant colours including Brown, Forest Green, Terracotta Red, Blue & Black.

Environmentally friendly, MiRoad Rubber Mulch assists in the conservation of moisture in the soil, reduces weed growth and is free from insects. It does not deteriorate from water or weather exposure and will retain its colour and effectiveness for it's lifetime.

Made from recycled SBR pigmented shredded rubber, it is safe for all plants and animals and, due to its elasticity, provides a soft underfoot surface, ideal for use in play or high human traffic areas, and is also gaining popularity in horse arenas for footing material.

Never needing replacement, MiRoad Rubber Mulch can be installed directly over existing mulch and is less affected by wind or heavy weather conditions.

Mulch Spread (20KG BAG)

Spread Height	Area (m ²)
20mm	4m ²
40mm	2m ²
60mm	1.33m ²

MiRoad Rubber Mulch

- Easy to Install
- Saves time and money
- Insect free

Grassman Artificial Lawn

With water and time becoming more valuable, artificial lawn is proving to be an increasingly popular alternative in Australia. Did you know that on average 75% of your water bill is comprised of water usage outside of the household?

Never needing watering or maintenance, and perfect for allergy sufferers, Artificial Turf incorporates a range of finishes and practical applications and should be considered when designing your outdoor area.

Soft underfoot, naturally tufted and continually lush and impressive, Urbano Artificial Turf retains its colour and impression long after the cheaper versions have faded and frayed; a finished look while natural lawns have barely established.

Complete with a 10 year warranty, this Australian designed and manufactured product is sure to impress, and with Urbano Artificial Turf able to design and install, your garden's facelift will be completed professionally and with minimum of fuss.

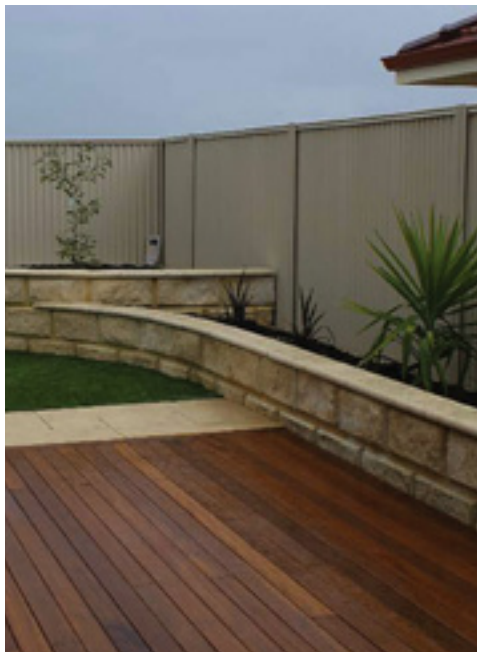

Urbano Recycled Plastic Decking

Recycled plastic timber decking is an attractive and dependable decking solution that will withstand the test of time.

Each piece is knot free and consistent in size, colour and length, therefore eliminating the search for the perfect piece. It will not warp or buckle, will not splinter and is scratch resistant. It looks, smells and handles like wood but has the durability of plastic.

Stylish, versatile and easy to install. Whether you have a deck, entertaining platform or pool and spa area, this adds definite style and sophistication which is long wearing, safe and eco-friendly.

Playground Safety Surfaces

This provides an impact absorbing surface around and under play equipment.

When mixed with polyurethane binder, it provides a safe, seamless and soft playground covering that is completely handicapped assessable.

These surfaces are elastic, non-skid, porous and can withstand extreme weather as well as non-flammable and shock absorbent. They provide safety as well as aesthetic looks.

- Indoor and outdoor areas
- Playgrounds
- Swimming pool areas
- Gym and locker rooms
- Boat docks
- Portable flooring
- Nursing homes
- Steps, patios & decking
- Exhibition stands
